BSSI – Selected by United Nations Office for South-South Cooperation (UNOSSC) EXPO for a Side Event – September 12-14, 2022

2022-07-14

Global South-South Development Expo 2022 Side Event – Sept. 12 -14, 2022

According to UNSDG #12, [Sustainable consumption and production](#) is about [doing more and better with less](#). It is time to rethink and re-invent from a green economy perspective with low carbon, efficient use of 4Ms - Manpower, Machinery, Materials, Methods and social inclusion for a better community.

We believe it is worth to explore responsible metaverse consumption and production Opportunities with blockchain concepts - traceability, transparency and decentralization to educate the community on:

- Ways to maintain a balance between human-touched and machinery-related works with more responsibility and less resources in different industries, e.g. POPsible NFT paintings platform in HK with social inclusion and education value, [spatio.io](#), Mozilla hub with multi-disciplinary knowledge, acted as a tool of educational technology to complement with zoom, google meet...etc.

Based on a recent research of Dr. Shirley Yeung, Convener, the side event **Metaverse Mindset via Transformative Business Exposure - SDG and NFT** (Side Event of UNOSSC EXPO) about a survey about transformative servant leadership in business management from September 2021 to January 2022 with subjects included people working in business management and students studying business management (a total of 310 responses are collected) that **Self-management with Team Work and Empowerment of Others to Serve the Society** is the key elements for **Transformative Servant Business Leaders**.

The online questionnaire consists of 6 constructs measuring the values of Commitment, Humility, Resilience, Integrity, Service and Teamwork (CHRIST) and items measuring characters of people in business management and their visions.

Date / Time
